Subject: GenX Sampling in WV/OH

Ms. McManus:

As indicated in the attached letters, we have been seeking sampling of public water supplies for GenX in Ohio and West Virginia for quite some time. Although US EPA's counsel was copied on several of these, we never received any response from US EPA on the issue. Instead, we learned only indirectly that US EPA had sent the attached letter to Chemours on January 11, 2018.

Please let us know what response (if any) has been received to your request and what the plans are for actually proceeding with the sampling your requested. If no such plans are in place, please confirm what steps will be taken to insure that all of the requested sampling data is obtained promptly, and that the public will receive full, immediate access to the data obtained. Please copy us on sampling data that is received from such public water sources.

Thank you.

Rob
